-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

The prior art documents submitted by applicants have been fully considered.

Claim Objections

2. Claim 4 is objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claim 4 has not been further treated on the merits.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-3 and 5-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Japanese Patent abstract 4-311767 (the abstract).

The abstract teaches a composition comprising a polyurethane (claims 2, and 6-8) and eggshell membrane blended therewith, per claims 1 and 5 wherein the eggshell is present in an amount contemplated by applicants in claim 3. The abstract does not specifically teach a fiber coated therewith, nevertheless, the

Art Unit: 1774

teachings in the abstract of a composition that provides good whiteness and excellent dyeability would have provided a suggestion to the skilled artisan to use said composition as a treatment for a fibers.

5. Claims 1-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Japanese Patent abstract 63-309273 (the abstract).

The abstract is as set forth above and teaches fibers processed with a composition comprising eggshell membrane and organic compound, per claims 1, 4, 5, and 9. The organic compound is of the type contemplated by applicants in claims 2, 6 and 7, wherein the eggshell is present in an amount within applicants' claimed range. The abstract does not specifically teach its composition as a processing agent, nevertheless, the utility with fibers in the production of papers would have provided a suggestion to the skilled artisan that said composition could be used as a processing agent. Therefore, the teachings in the abstract would have rendered obvious the invention as claimed in present claims 1-9.

No claims are allowed.
